

TOPAKUSTIK® Type HR 9/2 M - PRODUCTDATASHEET

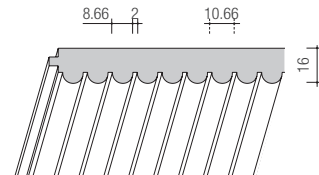

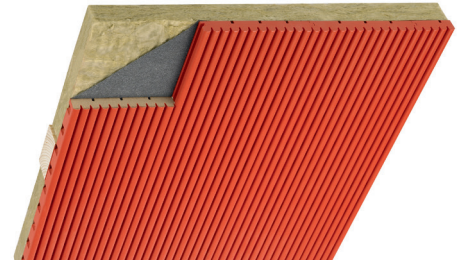

TOPAKUSTIK® Type HR 9/2 M - the semicircular profile

In addition to the good acoustic effect, this semicircular profile can be used as a design element. It is available in the color-varnished version and is appreciated by many architects.

Planks

Thanks to the precise tongue and groove connection, planks result in an attractive surface with joint-free appearance, because the connection joint matches the dimension of the grooves. The planks permit simple and flexible assembly. They can be installed by stapling to timber battens or using a screw clip and on a H-bar with turning-clip.

Fire Category, D-s2, d0 (CH 4.3)	Fire Category B-s2, d0 (CH 5.3)
Paint 16 mm	Paint 16 mm
standard	
3800 x 128	3800 x 128
custom lengths are also available
